SUMMARY

As an experienced Front-End Developer with over a year of experience, I am seeking new challenges to further enhance my skills and expertise. My proficiency in JavaScript, combined with my experience working in large development teams, has honed my technical abilities and strengthened my communication skills. Additionally, working under tight deadlines has taught me the importance of time management and problem-solving.

PROFESSIONAL EXPERIENCE

BIN Corporation Group

05/2022 - Present

Front-End Developer

- As a vital member of the Travelner product team, I collaborated with 12 individuals to deliver comprehensive travel services including flight, hotel, transportation, and insurance booking
- Experienced in agile methodologies with daily stand-ups and sprint planning/retrospective sessions
- Skilled in team collaboration and project tracking for efficient delivery of high-quality work
- Developed a mobile application, and web application using React Native, and ReactJs, implemented new features, fixed bugs, and optimized the application for better performance
- Worked on the integration of APIs, third-party libraries, and other tools to enhance the functionality of the application
- Collaborated with the design and product teams to create a seamless user experience
- Conducted thorough testing and debugging to ensure the quality of the application
- Deployed the application on CH Play and App Store, ensuring compliance with the respective app store guidelines
- **Stack:** JavaScript, TypeScript, HTML5, CSS3, React Native, ReactJs, Redux, Redux Saga
- **App Store:** <https://apps.apple.com/vn/app/travelner-top-travel-deals/id1575197501>
- **CH Play:** <https://play.google.com/store/apps/details?id=com.travelner&hl=en>

Cybersoft

10/2021 - 03/2022

Front-End Developer

- Utilized HTML, CSS, and JavaScript to create 4 responsive landing pages for the company
 - Contribute to the development of an e-commerce platform using ReactJS, delivering user-friendly and interactive experiences for customers
 - Responsible for implementing the shopping cart page, the homepage, and the product filtering page based on categories in the e-commerce project
 - As a part of the e-commerce project, I was mentored by senior developers on how to create reusable components and implement custom React hooks, increasing code efficiency and reducing redundancy
 - **Stack:** JavaScript, HTML5, CS3, ReactJS, Bootstrap, Material UI, Redux, React-router-dom
-

SKILLS

- **Programming Languages:** JavaScript, HTML5, CSS3, Typescript, Nodejs
- **Frameworks & Platforms:** ReactJs, React Native, ExpressJs, Redux, Redux toolkit, Redux saga, Axios, RESTful API, React-router-dom, React Navigation, Bootstrap 5, SCSS, MaterialUI, TailwindCSS
- **Databases:** MySQL, MongoDB
- **Version Control Systems:** Github, Gitlab

EDUCATION

University of Science

2018 - 2022

Bachelor of Science: Computer and Embedded System

CERTIFICATIONS & ACCOMPLISHMENTS

- Toeic: **810/990** (Listening & Reading), **270/400** (Writing & Speaking)
- Presented a scientific paper titled "*Training Low-Latency Deep Spiking Neural Networks with Knowledge Distillation and Batch Normalization Through Time*" at **The 5th International Conference on Computational Intelligence and Networks in Bhubaneswar, Odisha in Dec 2022**. The paper can be found here: <https://ieeexplore.ieee.org/document/10037455>.
- Received an **academic scholarship awarded** by the University of Science to students enrolled in the Initiative programs.
