WORK EXPERIENCE

Mobile Developer

BIN Corporation Group

- 📅 09/2022 - current   📍 Ho Chi Minh, VN
  - As a vital member of the Travelner product team, I collaborated with 12 individuals to deliver comprehensive travel services including flight, hotel, transportation and insurance booking
  - Experienced in agile methodologies with daily stand-ups and sprint planning/retrospective sessions. Skilled in team collaboration and project tracking for efficient delivery of high-quality work.
  - As a mobile developer, I use React Native to translate Figma designs into functional mobile apps while fulfilling all requirements specified by the business analyst, resulting in successful product completion.
  - Improved mobile app features to align with website and successfully deployed on updated versions on Google Play and App Store.

Front End Developer (Fresher)

Cybersoft

- 📅 01/2022 - 08/2022   📍 Ho Chi Minh, VN
  - Utilized HTML, CSS, and JavaScript to create 4 responsive landing pages for company
  - Contribute to the development of an e-commerce platform using ReactJS, delivering user-friendly and interactive experiences for customers.
  - Responsible for implementing the shopping cart page, the homepage, and the product filtering page based on categories in the e-commerce project.
  - As a part of the e-commerce project, I was mentored by senior developers on how to create reusable components and implement custom React hooks, increasing code efficiency and reducing redundancy.
